

starch, microcrystalline cellulose, silicated microcrystalline cellulose, (Povidone®),  
polyethylene glycol, calcium phosphate, magnesium stearate, precipitated silicic acid,  
precipitated silica, highly dispersed silica, sorbitol, mannitol, or mixtures thereof.

12. The process according to claim 8, characterized in that the particle size of said at  
least one additional substance is within a range of from 1 to 500  $\mu\text{m}$ .
13. A dry extract obtainable by a process according to claim 8.
14. A medicament, containing a dry extract according to claim 13.
15. The medicament of claim 14 in the form of a tablet.

REMARKS

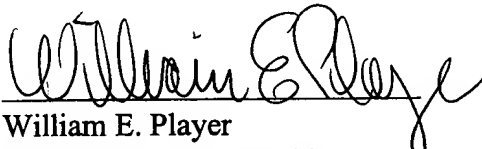

Claims 8-15, presented hereby, contain subject matter of the original claims, revised to  
eliminate multiple dependencies and to, otherwise, more clearly define the invention.

Favorable action is requested.

Respectfully submitted,

JACOBSON HOLMAN PLLC
